Agenda

Welcome

Executive Committee Announcements

Constituency Group Updates & Task Force Reports

Open Discussion & Announcements

All members are encouraged to bring a GIS issue or topic of discussion to the Forum at this time. Anyone making an announcement at the meeting must provide a written summary of their comments to the [NJGF Executive Committee Secretary](#) so that they can be included in the meeting minutes. Members with a GIS issue or topic can also contact their [Executive Committee constituency group representative](#) between Forum meetings.

Scheduled Speakers & Presentations

Where and how will NJ grow in the future?

John Hasse, PhD, AICP, Director, Geospatial Research Lab, Professor, Rowan University

NJ MAP's new tools NJ Smart Growth Explorer & Remaining Landscapes offer complementary themes to use for thinking about the future of New Jersey.

The [Smart Growth Explorer](#) is an interactive map website where users may explore any area in NJ (from statewide to block/lot) to understand existing data and information that may inform better decision-making at the local level. Whether it's to understand current or potential climate impacts, visualize environmental conditions throughout a municipality, or how to better balance municipal economic growth & development pressure alongside current zoning and master planning.

The [Remaining Landscapes](#) is a published geospatial dataset primarily derived from NJDEP land use land cover that illustrates the amount & location of undeveloped lands that could potentially be developed or conserved in the future. It breaks down NJ's land area based on six categories: Developed Unconstrained Lands, Developed Constrained Lands, Protected Areas, Undeveloped Unconstrained Lands, Undeveloped Constrained Lands, Road Right-of-Ways, and Water.

Future General Meeting Dates

Held in-person at NJOIT ITC Room, 300 Riverview Plaza in Trenton ([directions](#)), as well as virtually via Microsoft Teams, unless indicated otherwise, 10:00am to 12:00pm

Thursday, June 5, 2025
